

Week 2 Reading and Exercises
STT 422: Summer, 2004
Vince Melfi

Here are reading assignments and exercises we'll be covering during the week of May 23rd. Unless I explicitly indicate otherwise, you can always skip the "beyond the basics" sections.

Monday, May 24

- Exam 1. We won't be covering any new text material, but will learn about using SAS for correlation and regression.

Wednesday, May 26

- Section 10.1. Exercises are 10.1, 10.3, 10.5, 10.9, 10.10, 10.13, 10.19, 10.20, and 10.25.

Friday, May 28

- Section 10.2. Exercises are 10.29 and 10.32.

Homework to be collected on Friday, May 28

Write up and turn in Exercises 10.9, 10.10, 10.20, and the exercise at the bottom of Lab 3. Remember that you can turn in one assignment per team. Just remember to put all team members' names on the assignment.
