

Results of exam 2 and exam 2 scale. 119 students taking (sections 9 through 16).

Question #4 will be re-scored (3-5-10) to award credit for both (a) and (b).

I'd planned that #3 and #4 would feed off 0.846 but typed 0.86 in #4 so some students stuck with 0.846 when working #4.

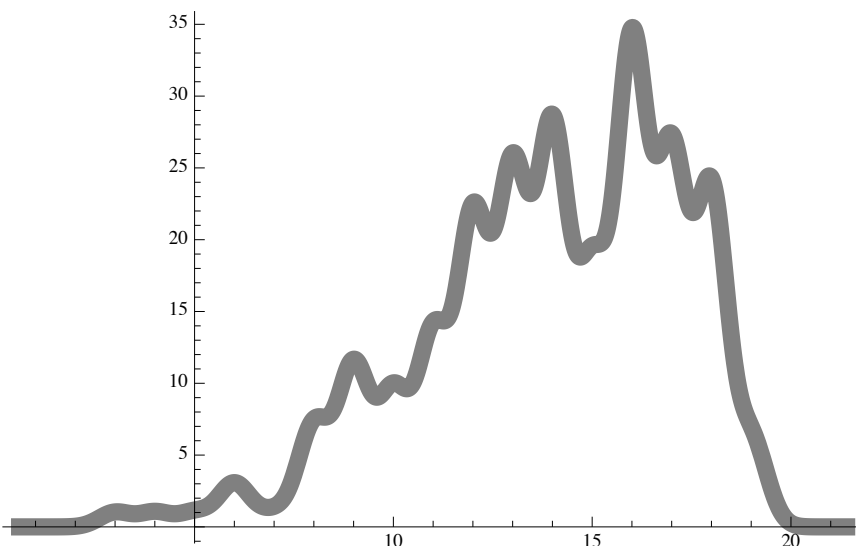

Two of three students left off the picture (below) earned 19. The other earned 18.

With these changes the picture below will shift a bit.

No bonus points are figured in this as they apply afterwards as a bump to the GRADE. Here is the grade scale for exam 2 (it will apply after re-scoring):

$$\text{exam 2 grade} = 2 + \frac{2}{7} (\text{score} - 10)$$

score      grade

3	0.
4	0.285714
5	0.571429
6	0.857143
7	1.14286
8	1.42857
9	1.71429
10	2.00
11	2.28571
12	2.57143
13	2.85714
14	3.14286
15	3.42857
16	3.71429
17	4.
18	4.28571
19	4.57143
